THE RIVAL ROUTES.

From the Adin Argus of May 25th we excerpt the annexed:

J. Culverhouse informs us that he has made satisfactory arrangements by which he will fill the new mail contract from Redding to Bieber. Mr. C. has been tendered the route from Bieber to Lakeview, and will undoubtedly accept the contract. This will give a through line from Redding to Lake Co., Oregon. Mr. Culverhouse has given entire satisfaction to the people of Modoc in the matter of his present mail contract and the management of his stage line, and has always done all in his power to advance our interests; we shall be pleased to see him in business here for another four years.

The route from Redding to Lakeview was advertised and let in two divisions, but Mr. Culverhouse has sub-contracted the whole. The people of Lakeview do not wish to be supplied from Redding. Nearly every resident of that place petitioned the Department to be supplied from Reno. The Reno route is the natural and best route to and through this northern country. Moreover, from a business standpoint, it is of much importance to Nevada. The Nevada delegation, however, seem to have allowed Mr. Culverhouse, or some other man interested in California mail routes, to induce the Postoffice Department to favor Redding to the detriment and damage of Reno and Virginia City.

"BRAINS" VS. THE "SACK."

The Denver Republican asserts that "brains, not money, will win" in Colorado politics. And the Reno JOURNAL comments as follows:

Colorado must be an exceptional State. In Nevada, whenever the two come in contact, one blow from the "sack" knocks the brains out of a man's head into the palm of his hand. Still the editor of the JOURNAL, the Hon. C. C. Fowling, does not deny that he is a candidate for Congress, and at present he holds the honorable office of Senator. He evidently had no confidence in the efficacy of "brains" in Nevada politics; hence we must conclude that he is going to fight without either money or brains, or else he proposes to use a club on the heads of his constituency and knock their brains out.—[Eureka Sentinel.]

Nothing of the kind. We have "pooled" our issues with Cassidy. We are to have what is left of that \$12,000 sack he handled in Eureka when he was elected to Congress. It will not be pretended, even by the Sentinel, that it was his "brains" which defeated Daggett.

I Am the Man that Killed Lord Cavendish!

A Philadelphia dispatch of the 26th reads as follows: When the steamship British King arrived in port last Monday the statement was made that on the voyage a steerage passenger, evidently demented, had jumped overboard on the fourth day of the voyage and was lost. Patrick Foy, of County Sligo, Ireland, who was also one of the steerage passengers, reported to the British Consul this afternoon, that he heard the man exclaim, as he leaped into the sea: "I am the man who killed Lord Cavendish." Foy is positive in his statement that those were the suicide's words, and says he was standing close to him when he uttered them.

The Virginia Chronicle is making strong complaint about the extravagance of the Storey county government and exhibits some damaging facts in the way of general mismanagement by the officials. Should the Chronicle extend its investigations it would find that the Fair tidal wave swept into office a number of Commissioners who have managed county affairs as badly as the Democratic Commissioners of Storey. This must be so if the acts of some of the other Democratic officials are to be taken as a criterion. A defaulting Assessor in Washoe, a delinquent Treasurer in Elko, and a negligent Clerk in Storey, are offered as fair examples.

Senator Fair's Family Homestead.

The Washington correspondent of the San Francisco Post writes this under date of the 20th:

It is rumored that Senator Fair's family will soon return to San Francisco, without waiting for the adjournment of Congress, which is still fixed at a distant and indefinite period. Mrs. Fair and her children are genuinely homesick, and find little to compensate them, externally, for the beauties of the Golden Gate. The chill, cold weather that followed close upon their arrival was worse than anything California could offer in either of its seasons. For two weeks the sun hardly showed its face, and the rain and mist were continuous. A more discouraging prospect could not meet a stranger's eye, and it is not at all queer that those pretty, rosy cheeked children should beg to go home. Mrs. Fair's loyalty to her home is quite as remarkable as it is admirable, and opposes a worthy example to the number of those who have hurried to the East and to Europe as soon as the Pacific Coast had dowered them with its treasures.

DECORATION DAY.

To-day, May 30th, is Memorial Day, to be observed by going out to the graves of our soldier dead, and decorating them with the fresh flowers of Springtime. In the crowded cemetery of the city, in the quiet graveyard of the village, in the shade of the valley, in the sunshine on the hillside, rest our soldier dead, brought from the fields of their glory, where they fell in the battle's storm, or who, stricken with wounds or wasted with disease, came back from their campaigns to be "mustered out," and to sleep their last sleep, amidst the scenes of their childhood, among kindred and friends.

We can say nothing as appropriate as the subjoined touching appeal from the Grand Army of the Republic of Pennsylvania.

"Remit entirely the cares and labors of life for the day, and devote it to our beautiful and impressive commemorative ceremonies.

"Diligently seek out every comrade's grave in our State, however humble, however secluded, lay upon it the laurel and rose; plant above it the flag for whose honor he died, now the standard of a nation, united and prosperous. It is but a simple act, but the spirit that prompts it is significant.

"No elaborate monument, no bronze tablet records the heroic deeds, the patriotic services, the unselfish sacrifices of those at whose graves we pay our floral tribute. But, comrades, as you stand beside these passionless mounds, there will arise vivid memories of the ardent, brave, courageous, genial and generous ones who lie beneath them.

"To them life was dear, the ties of home sacred, the hopes of the future bright, but moved by the purest patriotism they voluntarily relinquished all for their country's cause, realizing well the hardships to be endured, the perils to be encountered, the prospects of life that would be blasted.

"And yet these, whose graves we shall decorate, are but a few of the mighty hosts of the fallen. Legions rest upon the war fields of the South, in the glades of the forest, by the streams along which they fought, on the hills on which they bled; and the sun of our Memorial Day will set upon their graves, unwatched and undecorated, save by the wild wood flower and the untrained vine.

"In a million desolate homes, North and South, there are grief and mourning for the volunteer who came not back from the battle, with the tattered flag under whose folds he marched away in the pride and strength of vigorous and hopeful youth.

"The services of Decoration Day are not, then, for vain display, but have a higher and nobler purpose, in reminding us of the priceless ransom paid for the integrity of our Republic and its institutions.

"May all our people participate in the beautiful ceremonies. May the young, especially, be impressed with their meaning and significance. May we, moved by the sad memories awakened, return to our homes at the close of the day thrilled with a purer patriotism, incited to a truer devotion to our country and with a firmer determination that ours shall be the most perfect 'government of the people, by the people, for the people,' and our warriors dead shall not have died in vain."

The California Greenback party proposes to hold a State Convention and put a full ticket in the field. It is coquetting with the Democracy at present, and a coalition of the two parties is not impossible.

The Santa Rosa Cal. Democrat announces this rule: "For a Democrat to vote with anti-monopolists is wrong, because it tends to disrupt the Democratic party."

The San Jose Mercury says that there is probably no word in the English language that has changed its meaning so frequently as that of Democrat.

"God Bless America and Her People."

[Tuscarora Times-Review.]

Jake Engler has just received a letter from his brother Louis, now absent in Germany, from which we are permitted to make the following extract. The letter is dated Thorn, April 29th, and the writer says: "I returned yesterday from a trip of five weeks, duration to Stettin and Berlin. I had intended to be gone about three weeks, but I enjoyed myself so well that I could not refrain from making use of the time. I spent two weeks in Berlin and saw a great deal worth seeing, of which I will tell you after my return. Berlin has improved and grown very much since the French war, and has a great many institutions worth seeing, and I thought it would not be amiss to see them while in Germany, and I finally arrived at the conclusion that I had not seen anything of this world heretofore. But when it comes down to the country and the people and their modes of living, I can only say, God bless America and her people, for they are the best people in the world, which I hardly believed to be the case ere I made this trip, but have satisfied myself that such is the case. Of course, you find some good people in his country also, but I speak of the average."

WOOD AND LUMBER BUSINESS.

What is Being Done and will be Done this Season.

[Truckee Republican.]

The lumbering and wood interests of the Truckee river were never in a more flourishing condition than at present. Nearly all the mills are now running with big contracts to fill, and the few that have not yet started up will do so in a few days. The Pacific Lumber and Wood Company have upwards of three million feet of logs on the Little Truckee and at the mill. They are running night and day, and will continue to do so till fall. They expect to cut at least ten million feet this season. Redding & Hohen will put in 8,000 cords of wood at Prosser Creek. Of this a large amount is already cut, and the work of repairing the Alder creek flume, preparatory to fluming it to the railroad track, is being pushed ahead as vigorously as possible. Thompson & Stone, of the Pacific shingle mill, at Camp 16, expect to cut five million shingles this season. They have also a contract for putting in several hundred cords of railroad wood, and furnish employment for a large number of men. George Schaffer is running steadily, and expects to cut five or six million feet between now and the first of September when he will shut down, and move his mill a mile and a half further back in the timber. Katz & Henry, at Verdi, are running their mill to its fullest capacity. They have contracted for all the lumber they can cut and are making calculations for a prosperous season. S. Lowery has a number of men cutting railroad wood near Donner Lake. His contract calls for 2,000 cords which is to be delivered on the railroad between Coldstream and Strong's Canyon. The Truckee Lumber Company is now running night and day. They expect to cut more lumber this year than any season for ten years past. They have placed their figures at fifteen million feet, and may exceed that amount. Their factory is running full handed, and is crowded with orders. Stewart McKay is making calculations to get out 2,500 cords of wood for the railroad company, to be delivered on the flat below town. At Bronco the wood business will be rushed. A. M. Wickes has a contract for getting out 5,000 cords of wood for the railroad company and will likely get out as much more for his private trade. The Boca Mill Company anticipate a lively season's work. They are now working night and day, and expect to cut ten million feet before they shut down. Richardson Bros. have been saving for the past two weeks and have logs enough for some time yet. They have started their logging teams and locomotive, and are getting in logs fast. They are only running a half crew on their box factory and planer at Martis Creek, on account of the scarcity of lumber, but they expect to have enough dry lumber on hand by the first of the month, to enable them to put on a full crew. They have more orders for boxes than they can fill. Besides this they have a contract for putting in two hundred cords of railroad wood. Ellis Ellen will start the Truckee saw mill in a few days. He has a large contract on hand for cutting ties, besides a large amount of lumber already contracted for. He also will put in several hundred cords of railroad wood. The coming season will be a booming one for Mr. Ellen. Lonkey & Smith will start their saw mills in about two weeks. Their Camp 16 box factory will start up very soon. They will run the Banner Mill on Sage Hen creek, and their other mill on Prosser creek, besides their Verdi factory, to their fullest capacity. This firm won't cut less than ten or twelve million feet of lumber this season. The snow in many places back in the woods is still two or three feet deep, but is going off rapidly. In some places it will be ten days before much can be done in the way of getting out logs.

A Human Magnet.

[Minneapolis Tribune.]

Mr. and Mrs. John C. Collins, residing at 117 East Ninth street, St. Paul, are astonished, almost dismayed, at a remarkable peculiarity only lately observed in their son, a boy ten years old. The boy is a healthy one, with nothing odd in his appearance except that close observers might consider his head disproportionately large. He attends a lower-town Catholic school, and in school appears as a rather bright scholar, but without particularly studious habits—just a stout 10-year-old boy with a boy's inclination for play and mischief, but quick to learn when he has to study.

The peculiarity is that the boy's left hand is a wonderful strong magnet. Metal articles of weight attach themselves to his hand so that considerable force is required to remove them. Knives, pins, needles, buttons, etc., enough to cover his hand, will thus attach themselves so firmly that they can not be shaken off. Still more, the attraction is so strong that a common coal scuttle can be lifted by it, and heavier implements have been lifted by stronger persons taking hold of his arm. With heavy articles, however, the boy complains of sharp pains during along the arm. In a lesser degree his left arm and the whole left side of his body exerts the same power; but it is not at all manifest on his right side. A scientific investigation of the phenomenon was to be begun last evening.

Grows on the Bushes.

The Plumas National is responsible for the following: That Plumas is one of the leading mining counties of the State there is no chance to doubt, and that the natural resources of the county are far ahead of any other is another certainty, but we never knew until a few days ago that gold grows on the bushes. Such, however, is the case. Our old friend Jim Lafont, in a little talk we held with him, states that while working his claim on Smith's Hill, some years ago, one of his partners found a nugget weighing an ounce or more, in the forks of a little oak sapling, some inches above the surface of the ground. He accounts for it with the theory that the bush forked under the ground, and grew around the nugget, and that later the dirt was washed from around it, leaving it exposed. We are inclined to be inclined to believe, however, that the soil in that locality is so rich that it impregnated the oak, and it blossomed and bore fruit in the shape of the nugget. Probably we shall run against the ideas of some of the old geological fossils who insist this region occasionally, but it can't be helped. Gold grows on the Plumas bushes, and they don't want to forget it.

## TOWN AND COUNTY.

Eight prisoners in jail.

Servant girls are scarce in Reno.

Ridgely Degree Lodge will meet this evening.

The surveyors will leave to-morrow morning.

Mr. F. Lemmon was in from Peavine yesterday.

W. R. Chamberlain went up North yesterday.

W. E. Price came down from Ophir last evening.

Mrs. Geo. H. Taylor has returned from Benicia.

The U. S. Surveyor General's office will be closed to-day.

Uncle Geo. Frazer was up from the Reservation yesterday.

W. S. Hobart, the capitalist, was a passenger for the Bay last evening.

Varian and Webster rode the Masonic Commandery goat in Virginia last night.

The "Hazel Kirke" troupe were passengers on Sunday evening's west bound train.

Bullock yesterday levied an assessment of 25 cents and Benton one of 20 cents.

The First National Bank will observe Decoration Day by closing at 1 o'clock this afternoon.

John F. Kopp, Pechner's assistant, left Reno on Sunday evening. He may locate at El Paso.

Several freight teams, heavily loaded with freight, went out for the northern country, yesterday.

Major E. B. Stonehill, formerly of this State, was a passenger for the west on Sunday night's train, just returning from London.

A private letter from Bellevue, Idaho, states that Mr. I. D. Cross, Sr., whose serious illness we noted a few days ago, is some better and there is reasonable hope of his improvement.

The Methodist folks intended to have a social at the church to-morrow evening, but have postponed it for one week, so as not to conflict with the social to be given by the Baptist folks.

Follow the Divine rule as laid down by St. Paul, by taking a little nip for the stomach's sake. But be sure to go to Chase &amp; Tynes' to do it, for there you get the best and purest of stimulants.

Gov. Kinkead came down from the Capital last evening. He has some friends on the Eastern train. He will return to Virginia on the V. &amp; T. train to participate in the Decoration Day exercises on the Comstock.

The ladies of the Baptist Church will give a social at the church on Wednesday evening next. There will be good music, recitations, ice cream and strawberries and a good time generally. All are cordially invited. Admittance free.

We are indebted to Congressman Cassidy for a copy of the fourth edition of a Digest which contains the Constitution of the United States, with the amendments thereto, to which are added Jefferson's manual of parliamentary practice, the standing rules and orders for conducting business in the House, and other matters of useful information.

## Weather and the Times.

If business were but half as good as the weather is charming, farmers, business men, mechanics and laborers would have no reason for the "blues."

## Chinese Larceny.

A criminal complaint has been sworn out before Justice Young against Que Duck, who is charged with stealing \$110 in corn, and a watch worth \$40, from Chung Hing, a Chinese trader of our town. The accused was arrested on Saturday in Truckee, and an application made to the Governor for the necessary papers to bring him here for trial. Constable Avery will probably bring him down to-day.

## An Able Effort.

The memorial address of Rev. Mr. Hatch at the Baptist Church Sunday evening, was a fitting reminder of the men and deeds of the late war. Mr. Hatch paid a glowing tribute to soldiers of that war and gave abundant reasons why their graves should be sought out once a year and decorated with the choicest flowers. In one place he said, with deep emotion, "Thank God, now the men who wore the blue, and those who wore the gray walk arm in arm as they go to this hour to the graves of fallen companions."

## NEGLECTED GRAVES.

Colonel McDermitt's Has Not Even a Head-Board.

The Lyon county Times calls attention to the graves of soldiers at Fort Churchill. It says: "When Memorial Day is near at hand it is a fit time to call attention to neglected soldiers' graves at Fort Churchill. There are 49 soldiers' graves there with wooden head boards upon which the names were painted. All of these names have been more or less obliterated by the action of the elements, most of them entirely so, a few only being decipherable, and that with difficulty. The grave of Colonel McDermitt has not even a head-board; it, however, is known to the people in the neighborhood. Probably not another upon which the name does not remain distinctly enough to be read can be identified." The Silver State comments as follows: "Colonel Charles McDermitt, whose grave, according to the Times, has not even a head-board, had command of the Department of Nevada during the Indian wars of 1864-5 with headquarters at Fort Churchill. In the Summer of 1865 the Indians were on the war path in this section and endeavored to drive the white settlers from Paradise Valley and to prevent travel over the Idaho road. Colonel McDermitt took command of the troops in the field against the Indians and on his way back to Quin River Station, where Fort McDermitt is now situated, from a scout up the valley, he was shot by an Indian who was concealed in the brush on a stream now known as McDermitt Creek, and lived only a few hours. This occurred on the 7th of August 1865, and his body was placed in a rough board coffin the best that could be procured at the time, and taken in a wagon to Fort Churchill, where it arrived twelve days later. The weather was intensely hot and decomposition having set in immediately after death, it was almost impossible to get the remains to Fort Churchill, where they were buried with military honors. Colonel McDermitt was a brave soldier and in justice to his memory the State of Nevada if not the general government, ought to see that a suitable and permanent monument should mark his last resting place."

## DECORATION DAY IN RENO.

The Occasion Not To Be Allowed To Pass By Unobserved.

We are very much pleased to be enabled to announce that Decoration Day is to be appropriately observed to-day in Reno. There are four soldiers' graves to be decorated—Isaac M. Chamberlain, Thos. Laswell, one other whose name we can not now recall, and the fourth, a stranger; the "records" in his case are said to be in San Francisco. The exercises will take place at 2:30 p. m., and will consist of an address by R. H. Lindsay, Esq., and the reading of the poem "The Blue and the Gray," by Sheriff Walker, probably.

It is only within a few hours that any preparations were made, but we hope that everybody will participate.

## Acquitted.

The Adin Argus says: "The jury in the case of the People vs. Simons acquitted the defendant after deliberating eight hours. This, it will be remembered, was the third trial of the case. In the first the jury disagreed; in the second he was convicted and sentenced, after which the Supreme Court granted him a new trial which resulted as stated above. In the trial just closed both the State and the defendant were represented by able counsel, and now that the prisoner is free we hope the people are satisfied. We learn that much enthusiasm was manifested in the court room and on the streets of Alturas, when the verdict was announced."

## The Tramp Nuisance.

Doubtless all railroad towns have reason to complain of tramps, but Reno seems to us to have more than her fair proportion. The class spoken of seem to like the railway track, and follow it, even where the country roads would offer them more chances of employment if as they mostly contend that is what they want. But we are not alone, as they seem to be on the increase over the whole Union. It is a difficult problem to grapple with, yet a prevention, a remedy and a cure are loudly demanded.

## Night Watchman.

Mr. John Hogan has been a very efficient officer on the night watch. No one can dispute the fact that a night watchman is a necessity. But Mr. Hogan receives but a small stipend for his services, and unless he is better paid, will not remain on any longer than this week. Our business men should see to it that he is encouraged to continue to perform the work. Can't something be given him out of the town fund?

## Death of General Renker.

General James E. Renker, a resident of Austin, died suddenly last Friday evening from heart disease. He served in the Mexican war, and was well known throughout the State, and highly respected. His remains will be taken to San Jose, Cal., for interment.

## Dr. Scott's Resignation.

At a meeting of the Baptist Church, held last Sunday, a letter was read from Rev. Dr. Scott resigning the pastorate of the church. After accepting the resignation the following resolution was adopted:

Resolved, That we accept the resignation of Rev. Winfield Scott, D. D., as pastor of this church, with deep regret that the relations that have been so pleasant and profitable to us should be terminated; and we extend our heartfelt thanks to Dr. Scott for the good work he has done in relieving us of the great burden of debt that threatened our ruin, and that we earnestly commend him to any and all Baptist Churches as a faithful, able pastor and preacher of the Word; that we invoke upon him and his family the Divine blessing that they may be abundantly prosperous, and wherever they go may they see great good come from their faithful labors.

A call was then unanimously extended to Rev. E. C. Hatch to become the pastor. It is believed he will accept.

## A County Fair.

The Aurora Herald calls for a county fair in Esmeralda again this year. It says: "Last year the farmers got up a fair in Mason Valley, and considering the limited notice given residents of the county and the outside world, there was a good showing and a better attendance than we expected to see. This year it is proposed to hold another county fair in the same place, Greenfield, which affords better grounds and accommodations for the purpose than any other locality in the county. In order to make the fair a complete success both in point of exhibits and attendance, the proper officers of the society should get together at an early date, arrange the programme and give notice of the time it is to take place. Let the gentlemen who have the matter in hand stir themselves at once and Esmeralda county can have a fair second to none ever held in this State."

## A Reax.

Wednesday morning last Jake Teeters made a thorough search for the body of the man the little Matthews boy insisted he saw in Donner Lake last Tuesday. The Republican says the lake was smooth as glass and the bottom could be distinctly seen, but he saw no trace of a drowned man. It is now thought by everybody that the little fellow was nervous and excited, and his imagination twisted some logs or rocks in the bottom into "a man with a watch chain on."

## No Danger from Grasshoppers.

Observant farmers in this valley inform us that the grasshopper pest will amount to but little this year, the few that have hatched out and are visible, being confined to the drier grounds and not in sufficient numbers to do the crops any serious damage. Last week's warm and abundant rain has been of great benefit both to cereals and alfalfa, so that notwithstanding the lateness of the season, there is now every prospect of abundant harvest in this and the adjoining valleys.

## Successor to Judge Hillyer.

Senator Jones has sent in the name of General Geo. M. Sabin of Eureka to the Attorney-General for appointment as United States District Judge for Nevada, to fill the vacancy caused by the recent death of Judge Hillyer. General Sabin is a leading lawyer, and has numerous endorsements of prominent members of the Bar of Nevada, as well as from many others. The nomination will probably be made this week.

## Well Pleased.

The Carson Appeal says: "The Eastern gentlemen who accompanied Governor Kinkead to Candelaria several days ago, were favorably impressed with the future of that section of the country, and upon their return to Chicago and New York will make a report in accordance with their impressions. It is safe to add that their visit will have a decided beneficial result for Candelaria."

Business along the line of the C. & O. is said to be good, although Hawthorne is very dull. Luning, 24 miles from Hawthorne, is growing in prominence and bids fair to outstrip other towns along the line. Being the junction for Garfield, Santa Fe and Grantsville mining districts, Luning forms the base of supplies for outlying sections. The Nevada Salt and Borax Company have erected a large building on their salt marsh and are putting in machinery to refine salt and borax. A side track a mile in length has been built to the salt beds.

Garfield District, Esmeralda county, is attracting considerable attention, the ore encountered there being of a very high grade. The Farrington brothers shipped some twenty-one tons to San Francisco for reduction. Close on to ten thousand dollars was the result.

Hon. R. M. Daggett and Mr. Matt Canavan, prospective Governors, were passengers on Sunday morning's train for the Comstock.

Tom Barnett intends to give the people a benefit, no more nor less than a grand clearance sale of his immense stock of boots and shoes, furnishing goods, etc. The sale will commence on the 4th of June and continue ninety days.

On examining the urinary deposits aropy sediment will often be found, and sometimes small particles of albumen will appear, the color will be a thin milky hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness.
